Profile

Full-stack software engineer with **4+ years of experience** architecting and shipping scalable web and mobile applications using **React, Next.js, Node.js, Nest.js and Laravel**, across on-site, remote and freelance engagements on Upwork and Fiverr with a **100% success record**. Built and deployed **35+ production systems** spanning e-commerce, point-of-sale, real-time multiplayer and AI-powered platforms. Strong foundation in REST/GraphQL API design, WebSocket-based real-time systems, database architecture (SQL & NoSQL) and end-to-end delivery, with hands-on use of modern AI-assisted development tools and Agile/Scrum workflows. Also active as a **researcher**, with profiles on ResearchGate and Google Scholar.

Professional Experience

2026 – **Present**

Founder & Studio Lead · Mobile Games Studio

Logic Build Technologies · Remote · Google Play

- Operating an independent mobile gaming studio publishing casual puzzle and brain-teaser titles on Google Play.
- Architected cross-platform game loops, interactive UI/UX, and 60FPS physics engines.
- Managed end-to-end publishing, in-app purchases, ad monetization, and Play Console compliance.

Jan 2025 – Feb 2026

Full-Stack Software Engineer

Spark Zone Technologies · Full-time · On-site

- Built and maintained RESTful APIs and server-side architecture using Node.js, Nest.js, Express.js and Laravel.
- Developed responsive front-ends with React and Next.js.
- Worked closely with cross-functional teams to introduce code review, testing and structured deployment practices that improved release reliability.

2022 – **Present**

Freelance Full-Stack Developer

Upwork & Fiverr · Remote

- Built and delivered web and mobile applications for clients worldwide using React, Next.js, Node.js, Nest.js, Laravel and Flutter.
- Architected scalable backends across SQL and NoSQL databases (MySQL, PostgreSQL, MongoDB).
- Managed the full project lifecycle on Upwork and Fiverr, from client requirements through deployment.

Jan 2023 – Jul 2023

MERN Stack Developer Intern

Zidio Development · Internship · Remote

Projects

5 PROJECTS

FEATURED SOFTWARE SYSTEMS · WEB, MOBILE & REAL-TIME ENGINES · LIVE DEMOS & SOURCE LINKED

01 **Notion AI Clone** — Collaborative Editor & AI Platform

Built a collaborative editor with AI, real-time documents, multi-user cursors, presence, mentions, media uploads, and APIs. Handled multi-user sync solved with Socket.IO and structured state.

TECH: Next.js, React, Node.js, Socket.IO, Groq, MongoDB, Cloudinary

Live Demo · GitHub · Video Demo

02 **Chess.com Clone (PakChess)** — Monolithic Real-Time Multiplayer Chess

Built a monolithic full-stack Chess.com clone with multiplayer, chess logic, move validation, leaderboard, sounds, smooth movement, and deployment. Handled real-time sync solved with structured state and Socket.IO.

TECH: React, Node.js, Express, MongoDB, Socket.IO

Live: /leaderboard · GitHub · Backend: pak-chess.onrender.com · Video Demo

03 **YouTube Downloader** — Android Media Processing & Workflow App

Built an Android YT-DLP downloader and workflow. Handled reliable downloads and media streams solved with structured processing and state handling.

TECH: Kotlin, Android, YT-DLP

GitHub

04 **Ludo Game** — Interactive Board Game with Computer Play

Built Ludo with computer play, movement, turns, game state, and board logic. Handled valid moves and turn progression solved with structured game logic.

TECH: React, JavaScript

Live: /computer · GitHub

05 **POS — Universal System for Any Company** — Point-of-Sale & Inventory

Full-stack multi-business management platform featuring inventory tracking, checkout billing, order workflows, sales metrics, and role-based permissions.

TECH: React, Node.js, Express, MongoDB, REST APIs

Live Demo · GitHub

Technical Skills

LANGUAGES	JavaScript · TypeScript · PHP · Dart · Kotlin · SQL
FRONTEND	React · Next.js · HTML5 · CSS3 · Tailwind CSS
BACKEND & APIS	Node.js · Express.js · Nest.js · Laravel · REST API · GraphQL · Prisma
DATABASES	PostgreSQL · MySQL · MongoDB · Redis · SQLite · Firebase
CLOUD & DEVOPS	AWS · Azure · GCP · Docker · CI/CD · Nginx
MOBILE	Flutter · Android · iOS · Kotlin
TOOLS	Git · GitHub · Puppeteer · Postman · Stripe · Shippo · Brevo · Sentry · AdMob · Jira · Trello · VS Code
AI-ASSISTED DEV	Cursor · GitHub Copilot · Claude Code · ChatGPT
WORKFLOW	Agile/Scrum · sprint planning · code review · testing · structured deployment

Core Strengths

Problem-Solving & Debugging · Client Communication · Agile/Scrum Collaboration · Time Management · Adaptability & Fast Learning

Education

Undergrad

BS in Computer Science

University of Engineering and Technology (UET) · Peshawar

Research Profiles

RESEARCHGATE	Muhammad-Khan-1749
SCHOLAR	Google Scholar Profile

Additional Information

INTERESTS	MERN stack, Next.js & Laravel enthusiast · building scalable web/mobile apps · DevOps tooling
